MySQL, Oracle(SQL), Postgre SQL.

Soft skills —

Resolved complex issues, Collaboration, Effectively managed time, Communication, Team Player, Curious to learn, Adaptability

Version control systems, tools and IDE: —

Git, GitLab, IntelliJ, VS code

📁 PROJECTS

Ecommerce Online Shopping Responsive Website (HTML, CSS, JavaScript)

- Engineered a responsive e-commerce platform utilizing HTML, CSS, and JavaScript.
- Designed and developed user interfaces for product browsing, searching, and purchasing.
- Integrated third-party APIs for payment processing and order management.
- Executed the integration of user authentication, shopping cart functionality, and order tracking features.

GymBuddy Website Project (HTML, CSS, JavaScript, React.JS, Tailwind CSS)

- Built a modern website for a gym using the Gymate theme.
- Added essential features such as a built-in timetable and a BMI calculator.
- Ensured a responsive design for optimal viewing on all screen sizes.
- Credits for Design: Radius Theme
- Tech Stack: Vite, React, JavaScript, Tailwind CSS

Event Management Website (HTML, CSS, JavaScript, SQL, C#, .NET)

- Designed an event management website using HTML, CSS, and JavaScript for the front end, ensuring a user-friendly and responsive interface.
- Executed server-side logic and database management using C# and .NET framework to efficiently handle backend operations.
- Designed and managed a relational database using SQL for storing event information, user data, and registration details, ensuring data integrity and security.
- Utilized the ASP.NET MVC framework to build dynamic web pages and handle user requests, enhancing the website's interactivity and functionality.
